### About This Game

Song is about to make a deal with an unfamiliar type of devil, and while the price of immortality may not be his soul, it will come at a cost. A semi-retired kung fu master, Song is plunged into a century-long adventure that pits him against ancient mysteries and a future he is forced to fight.

The player will direct Song through a complex series of events as he battles the demons of his past, along with some new ones, in a quest to discover what it really means to be human, and alive.

- A complex narrative & deep characters
- Graphics reminiscent of old Saturday morning cartoons and adventure games
- Point & click gameplay (also keyboard & controller-friendly)
- Soundtrack of instrumental hip-hop and DnB
- JRPG-style turn-based combat
- Powerful starting moves and many more to master
- Common-sense problem-solving "puzzles" inspired by reality
- Fights that are intrinsically linked to the narrative
- Timeline that fills in as you progress
- Manual levelling-up for custom stat-based character builds

Future Ghost is a blend of old-school 2D point & click adventure game with JRPG-style battles thrown in, telling a genre-bending story 20 years in the making.

**C02. Riddles with Littles**

For young children, change the first line to "Across the starry sky I race," to give them an additional clue. The answer to the riddle is "the moon." At the GM's discretion, Shu Lai provides extra clues to PCs who are having a difficult time solving the riddle, for instance: "some have seen a man in me" and "I am the brightest light at night." There is no losing here, as many hints as are necessary may be given until the riddle is solved.

**C03. Exploring with Small Children**

Little gamers don't always know which direction to travel and need a bit more guidance than your average adult player. If you find they are struggling to follow the adventure, or are needing to be redirected from attempting to climb the walls, try offering more precise options. Instead of "You see all of this what do you do?" try encouraging them with assumptive questions such as "Do you approach the doors or would you rather try the stairs first?". You could also offer them guidance in the form of an NPC party member that wanders off in the required direction. Especially their first adventure, it's good for them to have an example to follow. You may feel a bit like you're running a game for yourself but children usually catch on quick and need less aid in no time!
